

QUIVERS
Connected Commerce

RETAILER GETTING STARTED

WWW.QUIVERS.COM

What is Quivers?

Quivers is a Connected Commerce SaaS provider with clients located globally. The Connected Commerce solution helps Brands take control of their online sales and fulfillment, selling their products using the Quivers Syndicated Product Information Management solution while fulfilling direct or through their retail channel via the Quivers Syndicated Order Management System.

Brands build their products on Quivers, create Marketplaces to host those products in various channels online and begin selling.

Retailers join Quivers to fulfill orders for Brands. Authorized Retailers are notified via email, text, or app that an order is available.

Businesses fulfill orders directly on the Quivers Admin Panel. Reporting is provided for real-time insights.

What Does Quivers Do for Retailers?

Quivers puts your retail shop on the map by connecting consumers closest to your shop's location.

Analytics and consumer details on the Quivers Admin Panel deliver insights to which products are being sold online.

Without the need for an online store, Quivers provides the tools for retailers to participate in online orders.

How to Become an Authorized Retailer

1. Signup on Quivers.com

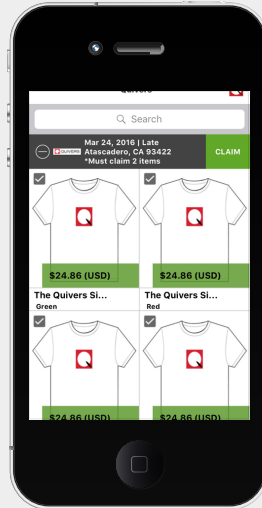

First name	
Last name	
your@emailaddress.com	✓
.....	✓

2. Find and connect or invite Brands in your industry to expand the product lines you can fulfill.
