

Silencer III

Alpha Professional Tools® offers 5 styles of high quality, large diameter silent core blades. The Alpha® Silencer III is a technologically advanced blade that produces excellent cuts while achieving superior cost performance with reduced noise levels. The unique core is made with 2 solid sheets of hardened steel with a thin copper sheet laminated in between them. This special construction dissipates the usually high noise levels common to this application. Available in formats for marble, common hard granites, porcelain, crystallized glass and engineered stone, the Alpha® Silencer III comes with a 60mm arbor standard and a 50mm reducer. Other size reducers are available to adapt these blades to various types of equipment.

| PART NO. | SIZE | MAXIMUM RPM | TYPE | ARBOR(S) |
|----------|------|-------------|--------------------------------|------------|
| SLW1439G | 14" | 4,365 | General Purpose Granite | 60mm, 50mm |
| SLW1639G | 16" | 3,820 | General Purpose Granite | 60mm, 50mm |
| SLW1839G | 18" | 3,395 | General Purpose Granite | 60mm, 50mm |
| SLW1437G | 14" | 4,365 | Hard Granite | 60mm, 50mm |
| SLW1637G | 16" | 3,820 | Hard Granite | 60mm, 50mm |
| SLW1837G | 18" | 3,395 | Hard Granite | 60mm, 50mm |
| SLW1450G | 14" | 4,365 | General Purpose Soft Granite | 60mm, 50mm |
| SLW1650G | 16" | 3,820 | General Purpose Soft Granite | 60mm, 50mm |
| SLW1850G | 18" | 3,395 | General Purpose Soft Granite | 60mm, 50mm |
| SLW16S2M | 16" | 3,820 | General Purpose Marble | 60mm, 50mm |
| SLW18S2M | 18" | 3,395 | General Purpose Marble | 60mm, 50mm |
| SLW1210P | 12" | 6,200 | Porcelain & Crystallized Glass | 1" |
| SLW1410P | 14" | 4,365 | Porcelain & Crystallized Glass | 60mm, 50mm |
| SLW1610P | 16" | 3,820 | Porcelain & Crystallized Glass | 60mm, 50mm |
| SLW1273E | 12" | 6,200 | Engineered Stone | 1" |
| SLW1473E | 14" | 4,365 | Engineered Stone | 60mm, 50mm |
| SLW1673E | 16" | 3,820 | Engineered Stone | 60mm, 50mm |
| SLW1873E | 18" | 3,395 | Engineered Stone | 60mm, 50mm |
