

SILENCER III

for  **DEKTON**®

THE ALPHA® SILENCER III for Dekton®...

is a technologically advanced blade that produces excellent cuts while achieving superior cost-performance with reduced noise levels. The uniquely designed core is made of two hardened steel sheets with a thin copper sheet laminated between them. This special construction dissipates the usually high noise levels common to this application.

Special diamond grits and a newly developed bonding system along with a narrow segment slot and fish hook laser-cut expansion slot design, minimizes the chipping on the sharp edges even on miter cuts of Dekton®.

The Alpha® Silencer III for Dekton® is available in 10", 12", 14", 16" and 18" with a 60mm arbor and 50mm adapter that are the common sizes of bridge saws. Other adapters are available to reduce the arbor size. With a 10mm segment, that was specially formulated for ultra-compact surfaces, the Alpha® Silencer III for Dekton® will provide excellent cost-performance and reduce noise levels while maintaining the highest quality cut.

A technologically advanced blade that produces **excellent cuts** while achieving superior cost-performance with **reduced noise levels.**

PART NO.	SIZE	MAXIMUM RPM	TYPE	FOR USE ON	ARBOR(S)
SLW1010D	10"	5,900	Dekton®/Porcelain/ Crystallized Glass	Marmo/ Montresor	50mm
SLW101PD	10"	5,900	Dekton®/Porcelain/ Crystallized Glass	Marmo/ Poseidon	50mm
SLW1210D	12"	6,200	Dekton®	Bridge Saw	60mm, 50mm
SLW1410D	14"	4,365	Dekton®	Bridge Saw	60mm, 50mm
SLW1610D	16"	3,820	Dekton®	Bridge Saw	60mm, 50mm
SLW161BD	16"	3,820	Dekton®	Breton	60mm, 50mm
