

# Corner Radius NIPPERS

**ALPHA**<sup>®</sup>  
CORNER NIPPERS

Alpha<sup>®</sup> Corner Nippers were designed to chop the corner of sheet glass without breaking the sheet. There are three sizes available to make a round corner in 3/8" (10mm), 3/4" (20mm) and 1-1/4" (30mm) radius. These corner nippers are ideal to quickly make round corners to complete the preparation for final edge polishing. Alpha<sup>®</sup> also offers a corner nipper for continuous cutting that is most suitable for mosaic and stained glass applications. All four Alpha<sup>®</sup> Corner Nippers are made with tungsten carbide tips and sharpened by a diamond wheel for an extra sharp bite and long lasting performance. Alpha<sup>®</sup> recommends these corner nippers not only for glass applications but also for porcelain and other ceramic tiles. When the Corner Nipper is used in conjunction with the Alpha<sup>®</sup> Corner Ruler, the application becomes easier and error free.

PART NO.	SIZE	DESCRIPTION
CNP010	3/8"(10mm) Radius	Carbide Tip Corner Nipper
CNP020	3/4"(20mm) Radius	Carbide Tip Corner Nipper
CNP030	1-1/4"(30mm) Radius	Carbide Tip Corner Nipper
CNC030	Universal	Carbide Tip Continuous Corner Nipper

**CNP010**  
3/8" Radius

Designed for 3mm~15mm Sheet Glass

**CNP020**  
3/4" Radius

Designed for 4mm~15mm Sheet Glass

**CNP030**  
1-1/4" Radius

Designed for 4mm~15mm Sheet Glass

**CNC030**  
Continuous

Designed for 4mm~15mm Sheet Glass
