- Helpful Hints
- Reference

Part No.	Size	Arbor
ADP6001	Adapter	60mm to 1"
ADP6030	Adapter	60mm to 30mm
ADP6035	Adapter	60mm to 35mm
ADP6045	Adapter	60mm to 45mm
ADP6050	Adapter	60mm to 50mm
ADP6125	Adapter	60mm to 1-1/4"

How to Use

Insert the Silent Core Adapter into the Alpha® Silencer III bridge saw blade. The size of the adapter used will depend on the spindle size of your bridge saw.

Refer to the owner's manual of the saw for proper spindle size.

Frequently Asked Questions (FAQs)

What is the arbor size of all Alpha® Silencer III bridge saw blades?

All Alpha® Silencer III bridge saw blades have a 60mm arbor.

What is the most common size adapter today?

The most common Silent Core Adapter size today is 60mm to 50mm. Alpha® provides a 60mm to 50mm silent core adapter with each Silencer III blade purchased.

What sizes are available for the Silent Core Adapters?

See chart on Page 1.

The spindle on my saw doesn't match any of the Silent Core Adapters available, what should I do?

Please contact Alpha Professional Tools® to advise us as to the make and model of your saw and we will consider adding this particular size to our product line. We may be able to produce the adapter size you require and send together with your new Alpha® Silencer III blade purchase.

Helpful Hints

- Make sure the Silent Core Adapter is fully attached to the core of blade prior to mounting onto the saw.
- Only use adapters that match the spindle size of the bridge saw.
